Key skills

Team Leadership
Web Development
Communication
Public Speaking
Documentation

Programming skills

Python
REACT-JS
MONGO-DB
Javascript
Git & Github
HTML
CSS
Tailwind CSS
Bootstrap

Methodology

Agile – Scrum

Certificates

(TCS - Pfizer Saudi Arabia)
Certificate of Appreciation

M001: MongoDB Basics

Summary

2 years of relevant experience in Web Development. Delivered 40+ sites to globally distributed clients. Documented various processes & strategies. Trained, guided, managed, and lead a team of young professionals. Process improvement through automation, finding optimal solutions, and better management of Time & Resources.
Experience

Tata Consultancy Services | Software Engineer |
Jan 2021 – Present

✓ Worked with Agility and developed Leadership Qualities.
✓ Trained, guided, and lead a team of 10 young professional associates which delivered the project with 99% efficiency with zero defects in production.
✓ Across the time zones in geographically distributed projects managed timely deliveries to Asia Pacific Middle East, Saudi Arabia, US-UK, South Asian, Gulf, and EU clients.
✓ Automated the tasks by 70% using -"Automated bulk image compression" & "404 error finding links" projects which improved the quality, reduced manual effort, and fasten the process of development.
✓ Optimized process tends to finalize the development of a 3-month project within 1 month and received a "*Certificate of Appreciation*".

Education

2020 Dr. A.P.J. Abdul Kalam Technical University
Bachelor of Technology - BTech, Computer Science.

2015 Rani Laxmi Bai Memorial School (R.L.B.)
Intermediate, Physics Chemistry and Mathematics.

Projects

➢ Portfolio Site build using ReactJs - https://ms-mayank.github.io/
  ▪ Used React, Router, useState and UseEffect Hooks.
  ▪ Find all the details on - Github

➢ Automated Bulk Image Compression
  ▪ Python script file which uses an API and compresses bulk images in a single click due to which reduced image size resulted in fastening the site load time by 30%.

➢ Automated Finding-404-Link-error Using Python
  ▪ Use of Beautiful soup, Reqeusts, and xlrd Python libraries.
  ▪ Extraction of the URLs from the given set of links by providing all the broken links from the entire site. Resulted in reduction of Unit testing time from 2 days to 45 minutes.

Awards

• DEBATE - Competition at TCS Maitree Toastmasters Club, 2022.

• TCS Codevita Qualifier-2019.

• Second Rank at Zonal Level in AKTU Fest -2018-19.

• All India Essay Writing Event UN Informatics Center, New Delhi, 2012.
